DETAILED ACTION***Double Patenting***

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

• 2. Claims 1-7 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 13-24 of **U.S. Patent No. 6,684,400**. Although the conflicting claims are not identical, they are not patentably distinct from each other because

The current application (09/922,910)...equates to...U.S. Patent (No. 6,684,400).

As to claim 1, the claimed "providing a set of more than two on-demand programs; packaging the set into a subset having at least two on-demand programs..." equates to "grouping the on-demand programs into subgroups...each comprising at least two on-demand programs;" of Pat '400 (col.12, lines 24-35);

The claimed “providing a user interface having the subset as a selectable object...” equates to “providing user selectability for purchasing viewing access to the at least one subgroup...” of Pat ‘400 (col.12, lines 35-36)

Claim 2 is met as previously discussed with respect to claim 1.

As to claims 3-4, the claimed “providing a time limited access period to the subset...” equates to “time limited viewing...” of Pat ‘400 (col.12, lines 4-46 and lines 60-63).

As to claim 5, the claimed “providing subscription to the package at a predefined price” equates to “wherein the fee is a subscription fee” of Pat ‘400 (col.12, lines 38-39).

As to claims 6-7, the claimed “one-time access fee...” equates to “for a fee...” of Pat ‘400 (col.12, lines 35-36 and lines 44-46).

Allowance of claims 1-7 of the instant application would result in an unjustified timewise extension of the monopoly defined by patent claim Y.
